

YUVASRI G

MERN Stack Developer

Chennai, Tamil Nadu | +91 79044 14424 | yuvas5466@gmail.com | LinkedIn | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science Engineering graduate with an 8.1 CGPA and 6 months of hands-on MERN internship experience, with practical exposure to **React.js, JavaScript, Node.js, Express.js, and MongoDB**. Built and worked on responsive web applications, REST API integrations, CRUD operations, authentication, and database-driven features. **Global Top 50 Hackathon Winner and IEEE Published Author**, with a strong foundation in web development and a passion for learning and applying new technologies.

TECHNICAL SKILLS

- **Frontend:** React.js (Hooks, Context), JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design
- **Backend:** Node.js, Express.js, REST API Design, JWT Authentication, Role-Based Access Control, Socket.IO
- **Database:** MongoDB, Mongoose, Schema Design, Aggregation
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Render, Vercel, Cloudinary

PROJECTS

MediFlow – Hospital Management System | *MongoDB, Express, React, Node.js*

[GitHub](#)

- Built a full-stack hospital management system with JWT-based authentication and Role-Based Access Control (Admin, Doctor, Patient), securing REST APIs across all modules.
- Developed Doctor and Patient management modules and an appointment-booking system with double-booking prevention, backed by relational MongoDB schemas via Mongoose.
- Implemented a real-time queue-position feature using Socket.IO, letting patients see live updates on their position in the appointment queue.
- Integrated Cloudinary for document uploads and built a role-based dashboard with appointment and patient statistics; deployed on Render and Vercel.

BonTrip – Travel Booking Website | *HTML5, CSS3, JavaScript*

[Live Demo](#)

- Converted a multi-section travel-agency design (hero video, destination gallery, booking flow) into a fully responsive HTML5/CSS3 site across desktop, tablet, and mobile breakpoints.
- Built an interactive trip-booking modal with dynamic destination selection and client-side form handling using vanilla JavaScript.

Jewellery Boutique – E-Commerce Frontend | *HTML5, CSS3, JavaScript*

[Live Demo](#)

- Developed a responsive jewellery e-commerce storefront with a product catalog, category filters, and add-to-cart UI components, keeping consistent UI/UX across the catalog and cart.

INTERNSHIP EXPERIENCE

MERN Stack Intern — Team Tweaks

Nov 2025 – May 2026

- Gained hands-on experience across the MERN stack through real-time project development, working on both frontend UI and backend feature implementation.
- Collaborated with a team to build and integrate responsive React interfaces with Node.js/Express backend services.

Web Developer Intern — Inertz Technologies & Techno Hacks

2025

- Built responsive UI components and translated design requirements into functional, reusable web components using HTML, CSS, and JavaScript.

EDUCATION

B.E. Computer Science and Engineering — GRT Institute of Engineering and Technology

2022 – 2026

CGPA: 8.1 / 10

ACHIEVEMENTS

- Top 50 Winner — CyborgDB Hackathon 2025 (ranked in Top 50 individually out of 1,300+ global participants).
- 2nd Prize — National Cybersecurity Hackathon, GRT TEXPO'25.
- Technical Team Lead — Google Developer Groups on Campus (GDGoC).
- Published and presented an IEEE research paper on an ML-based document auto-verification system.
